# What is Osaka Art & Design?

Osaka Art & Design is a multi-venue tour-around event throughout Osaka City.

Osaka Art & Design aims to reimagine public spaces and connect people through creativity in unexpected places throughout the city.

# What is Osaka Art & Design?

## MISSION:

Creating a world-class Creative City—OSAKA—through art and design.

In 2025, the Osaka-Kansai Expo will draw global attention to the region. Taking this opportunity, local businesses in Osaka have united annually since 2023 to promote creative culture through art and design.

Osaka Art & Design has already expanded in scale and this year's event, held alongside the Expo, is anticipated to be its biggest yet, with an influx of domestic and international visitors expected. By facilitating meaningful exchanges among organizers, creators, galleries, interior shops, and visitors, Osaka Art & Design aims to accelerate the realization of Creative City OSAKA.

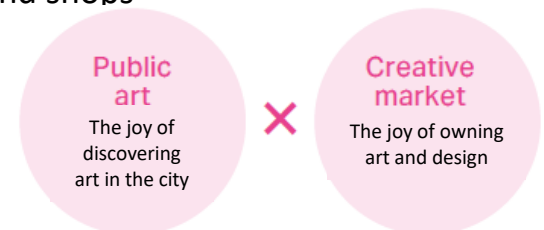

With a long-term perspective of 10 years, the team is committed to making Osaka a world-renowned creative hub. It will continue to evolve beyond 2025 in collaboration with neighboring cities like Kobe and Kyoto.

## VISION:

"A festival of art and design that draws people from across Japan and the world."

This is a one-of-a-kind event where you can:

- **Enjoy seeing** art as you stroll through the city
- **Enjoy owning** artworks and design pieces by shopping at galleries and shops

## 2025 Theme

# Overlaps

Do you have something you can be completely absorbed in?

When you're so immersed that you forget to eat or sleep, that passion generates an incredible amount of energy.

And when individual passions begin to overlap, that energy resonates and multiplies, eventually becoming a force powerful enough to transform the world.

In this milestone year of the Osaka-Kansai Expo, people from all over the world will gather and connect in this city—what kinds of chemical reactions will emerge?

In Osaka, a place full of unconventional and uniquely expressive sensibilities, a new era of art and design is about to begin.
